

PT100

➔ Portable Data Collection Unit For Guard Patrol

Fingerprint Sensor : Infrared Auto-sleep
Optical Sensor
Fingerprint Algorithm : 10
Built-in RF Card Reader : 125KHz Proximity
Card(Optional 13.56MHz Mifare Card)
Fingerprint Capacity : 500
Card Capacity : 1,000
Log Capacity : 30,000
Communication : USB Client
Power Suply : 5V, 800mA
Battery : 2,000mA Lithium Battery
Operating Temperature : -10°C ~ 40°C
Dimension(LxW xD) : 162 x 52 x 46mm
Net Weight : 0.22Kg
Ingression Protection Rate : IP65

Features

- ▶ 1.44" LCD Display
- ▶ Fingerprint authentication, accurate and convenient and effectively stop "buddy Punching"
- ▶ Robust Design for shock resistant, anti-drop upto 1 m
- ▶ IP65 waterproof and dustproof
- ▶ Low power consumption, Standby 7 days
- ▶ Reads EM 125 KHz Proximity Card and Tags
- ▶ Dedicated Patrol Software For System Configuration, Data Collection and making reports.
