➲ Intelligent Wireless Door Lock System

Material : Zinc Alloy

Mortise : German standart single latch

Front : 69(W)×155(L)×35(D)

Back : 69(W)×155(L)×25(D)

User Capacity : 90

Admin : 10

Normal User : 60

Temporary User : 20

Operating Temperature : - 20°C - 55°C

Power input : 4 x AA alkaline Battery

Backup unlock mechanism :

Emergency battery

Mechanical key

Standard : 39 to 46mm | 47 to 54mm

Optional : 30 to 38mm | 55 to 60mm

Backset : 62mm

Features:

‣ Support bluetooth connection, unlock & manage users by ZKBioBT App

‣ Capacitive sensing technology- Touch to open

‣ Idle handle design to prevent from forcible entry

‣ Registration data are stored even if there is power loss

‣ Handle, latch and strike are reversible for all door opening directions

‣ Ease to install, program & easy to use-No wiring is required

FC CE RoHS
