

SILK 20M

➔ SILK ID Sensor

Fingerprint Capacity : 2000

CPU : 264MHz

Flash Memory : 8MB

Communication Interface : 232-TTL/USB

Sensor : 500 DPI Optical Sensor

Template Size : <2048 Bytes

Image Capture Area : 15.24x20.32mm (FAP20)

Image Size(px) : 300x400

Finger Rotation : 360°

Supply Voltage : 5V-250mA scanning,

5V-25mA idle (Waiting for Finger)

Dimensions : 36.2x44.2x15.85mm (LxWxH)

Optional Feature : Anti fake within limit

Features:

- Easy Integration by smallest size without any extra accessories
- Durable glass touch surface
- Stable operation under strong light source
- Quick recognition of dry, wet and rough fingers
